C U R R I C U L U M

for the Master's degree programme

International Management of Forest Industries

in the 2022/23 academic year

The curriculum is produced and determined by the Department Council of the Department of Forestry, in accordance with the study and examination regulations for the Master's degree programme International Management of Forest Industries at Weihenstephan-Triesdorf University of Applied Sciences (SPO-M-FI) of 22 December 2021.

Weihenstephan, 23 August 2022

Prof. Dr. Steffen Rogg
(MFI Degree programme coordinator)

LV	=	Course	StA	=	Student research project
SWS	=	Weekly hours per semester	SU	=	Seminar-based tuition
mP	=	Oral examination	PA	=	Project work
N	=	Performance record (alongside studying)	TN	=	Certificate of participation
P	=	Internship	Ü	=	Tutorial
pL	=	Practical performance record	(Ü)	=	Tutorial components which take place as part of SU
ext.	=	extern			

2 Course structure of the master's programme

The degree covers a standard period of study of three full-time semesters. The course can be started in the summer and winter semester, with the modules in the summer semester being organized by the HSWT in Weihenstephan and the modules in the winter semester being organized by the BFH-HAFL in Zollikofen.

The third semester is reserved exclusively for the master's thesis and the concluding colloquium.

In addition to the obligatory modules and the required elective module in the first semester, elective modules that are not relevant to passing the degree programme can be taken. It is also possible to take modules offered as general or subject-specific required elective modules (AWPM/FWPM) as an elective module. This requires an additional consultation with the respective lecturers of the AWPM/FWPM.

3 Obligatory modules (Pflichtmodule)

3.1 Obligatory modules: First semester (summer semester) - Weihenstephan

ID	Module	SWS	EC	Type of LV	Type and duration of exam in minutes	N, TN	Lecturer
353221010	Economic Planning and Management in Forest Industries	4	5	SU Ü PS	StA 10W		Dr Stübner, guest lecturers
353221020	Cost Management and Controlling	4	5	SU Ü PS	sP 120		Dr Rogg, Dr Schindel
353221030	Law for Leaders	4	5	SU Ü PS	sP 120		Dr Endres, Dr Hofmann
353221040	Information Management	4	5	SU Ü PS	StA 10W		Dr Rogg, guest lecturers
353221050	International Timber Trade	4	5	SU Ü PS	sP 90		Dr Berger, Dr Speth
353221800	Electives	4	5	SU Ü S PS	sP 90 / mP 15-45/ StA 10W / Koll 20-30/ PA 10w		
Σ SWS in semester 1 (SS)		24					

3.2 Obligatory modules: Second semester (winter semester) - Zollikofen

ID	Module	SWS	EC	Type of LV	Type and duration of exam in minutes	N, TN	Lecturer
353222010	Knowledge Management and Sharing in Agriculture and Forestry	4	5	SU S	StA 10W		Dr. Norgrove, Brunner, Raeber, guest lecturers
353222020	Integrated Natural Resources Management and Climate Change	4	5	SU Ü PS Pr	StA 10W		Garcia, Gardi, guest lecturers
353222030	Logistics, Supply Chain and Network Management	4	5	SU Ü S	StA 10W		Dr. Pauli, guest lecturers
353222040	Consumer Behavior, Markets and Trade	4	5	SU Ü PS	StA 10W		Dr. Blaser, Götze, Dr. Lechthaler, guest lecturers
353222050	International Forestry and Forest Industry	4	5	SU S	StA 10W		Garcia, guest lecturers
353222060	International Forest Engineering	4	5	SU S	StA 10W		Dr. Norgrove
Σ SWS in semester 2 (WS)		24					

3.3 Obligatory modules: Third semester

ID	Module	SWS	EC	Type of LV	Type and duration of exam in minutes	N, TN	Lecturer
353223000	Master's Thesis (Thesis) (Defence colloquium)		30 (27) (3)		Thesis Koll. 30		
Σ SWS in semester 3							

4 Required elective modules and elective modules (Wahlpflichtmodule und Wahlmodule)

Each student must successfully complete a required elective module worth 5 EC.

Enrolment in required elective modules and elective modules offered at the HSWT usually takes place in the **first week of the semester**. If a student chooses to study more than one required elective module, the surplus required elective modules are converted into elective modules.

In each module or module component selected, students should obtain a performance record (either within or outside of the examination period). The final marks of the required elective modules will be shown on the certificate. (Elective module marks shown only on written request). For organisational and didactic reasons, the number of participants may be limited (minimum and maximum number of participants). If necessary, participants will be determined using a selection process. Various factors affect whether all required elective modules and elective modules are taught, including whether there are sufficient students interested.

Upon request to the Examining Committee, a module may be selected from the entire range of modules offered by HSWT and the Bavarian Virtual University (VHB). BSc. students have priority in the case of oversubscription to the range of BSc. elective subjects.

Information on the language courses offered by the Language Centre, which can be taken as a required elective module, can be found in the Language Centre's Curriculum for the Master's degree in International Management of Forest Industries at: <https://www.hswt.de/en/international/language-centre/courses-wst.html>

Every student can choose elective modules as they wish. As long as there are places available, all general and subject-specific required elective modules (AWPM or FWPM) of the bachelor's programme in Engineering in Forestry can also be voluntarily taken as elective modules. In addition to registering via Student.Online, consultation with the respective lecturer is necessary. You can find an up-to-date list of the elective modules offered in the bachelor's programme in the curriculum at <https://www.hswt.de/en/studies/degree-programmes/engineering-in-forestry.html> (right column).

5 Protection of students during pregnancy, after childbirth and while breastfeeding

On 1 January 2018 the law updating maternity protection rights – and therefore a new Maternity Protection Act – came into force. The Maternity Protection Act now also applies to students. The purpose of the law is to protect the health of the woman and her child in her place of study during pregnancy, after childbirth and while breastfeeding. The law aims to enable students to continue their studies during this period without posing risks to their health or that of their children, and to counteract disadvantages during pregnancy, after childbirth, and during the breastfeeding period.

In the compulsory modules of the Master's degree programme, the participation of students during pregnancy, after childbirth and while breastfeeding is possible without any certain restrictions.

If you have any questions about participating in the required elective modules, please contact the relevant lecturer.
